# SPCX PRO<sup>®</sup> LINE

*The ultimate line for all vegetation*

**SPCX Pro<sup>®</sup> extremely reliable trimmer line for all hobby and professional use. Dual Action: a line with extraordinary flexibility that is also highly resistant to notches and abrasion.**

SPCX Pro<sup>®</sup> has a shock damping core and an outer layer that acts as a shield, reducing breakages.

The two exclusive blends in SPCX Pro<sup>®</sup> give an optimal cutting experience. The unique shaping process provides a highly aerodynamic profile which means a more precise cut, less vibrations and reduced decibel emissions.

Durable and flexible, SPCX Pro<sup>®</sup> is **THE** ultimate line for all vegetation.

## LINE BENEFITS

### High durability:

- Hard wearing against obstacles (stones, fences...)
- Highly resistant to notching and fraying
- Superior resistance to wear at the eyelet
- Greater durability than traditional lines

### Aerodynamic line:

- Less effort required during cutting
- Reduced decibel emission
- Very stable

### Usage:

- All types of users
- All types of vegetation
