SPEED BLASTER®Line

The universal line for all vegetation

SPEED BLASTER® Line for heavy duty use for all types of vegetation from grass to thick and dry weeds.

SPEED BLASTER® Line made of one of Speed Group's most durable proprietary blends resists wear and tear cutting all types of vegetation. The proprietary blend absorbs shock's and reduces eyelet breakage when working against fences, pavements, and stony soil types.

The exclusive shape and line pitch provides an aerodynamic profile with less air resistance, less vibrations and reduced decibel emissions. These energy saving features give a longer battery run time or saves on gas for the gas machines.

Universal use.

LINE BENEFITS

Hard wearing :

- Proprietary blend
- Cuts through all types of vegetation
- Hard wearing against sharp or hard objects
- Superior resistance to abrasion and eyelet wear

Excellent Aerodynamic Properties :

- Longer battery run time
- A faster cut than traditional lines
- Less effort required when cutting
- Reduced decibel emission

Usage :

Universal
